

Customize landing page headings, links, and buttons

For events and attendee portals.

A landing page contains the event title (or portal title), date and time (events only), a registration form, a login form (for people already registered), and custom content you add. You can customize the text labels for headings, links, and buttons on the registration form, and the Add to Calendar button. In the Webcast Admin portal, these are called *landing page labels*.

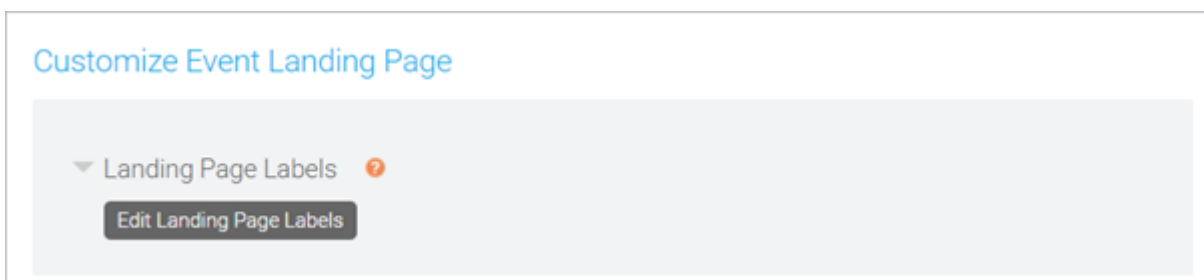

The labels available depend on the registration layout you chose on the Player & Branding tab (for events) or Branding tab (for portals). To learn more, see [Landing page labels | Open layouts](#) and [Landing page labels | Bar layouts](#).

Jump to: [Edit landing page labels](#) | [Available labels](#)

Edit landing page labels

To edit the button text and landing page labels:

1. Sign in to the Webcast Admin portal and edit the event or portal.
2. On the left panel, click the **Registration** tab.
3. Under Customize Event Landing Page, expand the **Landing Page Labels** section and click **Edit Landing Page Labels**.

4. Enter the new text for the headings, links, and buttons.

Edit Landing Page Labels

All Layouts

Add to Calendar Button
Default text: Add to Calendar

FAQs and System Test Button
Default text: FAQs and System Test

Header Text on Password Login Page
Default text: Please enter your password to access the webcast.

Login Password Field Label
Default text: Password

Event Capacity Reached Viewer Message
Default text: The event you are attempting to view has reached its maximum capacity. Please try again later.
We're sorry, but this event is full. Please check back later for the archived en

5. Click **Save Changes** to save the text. Then click **Save and Continue** to save changes to the landing page.
