On-demand & Simulated Live Studio Training (19 mins)

When your Live event is over, use the On-Demand Studio to add the finishing touches to the event recording. Or use the On-Demand and Simulated Live editing studios to create professional webcast recordings designed to be played on demand or as Simulated Live events. This video provides detailed instructions on using the editing studios.

Report Training (9 mins)

Access detailed user and event-level analytics for your events. In this video, you'll learn about the data you can include in your reports, how to run reports for individual events and a group of events, and how to read them.

Report Template Training (2 mins)

Do you frequently run the same reports for your events? Create reporting templates to speed up the process and automatically select the data points to include in your reports. In this video, you'll learn how to create and manage new report templates and share them with your team.
